Re: Tejon Quarries Modifications

Dear Mr. Western:

Pursuant to our meeting yesterday I am submitting the following documents as agreed necessary in the modifications to the Tejon Quarries and the presently held surety bonds:

- Application For Mineral Mine Plan Termination (terminating NOI M14/027/087)
- Application for Site and Bond Release
- Notice of Application To Commence Small Mining Operations (Tejon # 4 quarry - Burgundy Quarry) - Check for \$150.00
- Small Mine Reclamation Contract

It was my understanding that while these documents are under processing that DOGM would grant a partial bond release. It was proposed that a time certificate of deposit held by Wells Fargo Bank (cert # 1851324135) in the amount of \$8,105.00 be immediately released to assist in covering the costs of the reclamation accomplished to date and approved by the BLM. Since these funds are critical I await your instructions as to how I may assist in accomplishing this objective.

Thank you again for your consideration in this matter. Should there be any deficiencies in this response please advise me.

Kindest Regards

W. David Weston
